

# A Future for Children

Unite for Education  
and Children's Rights

# Our goal: education for all

Millions of children are affected by poverty and conflicts.

They suffer from preventable diseases. They are forced to leave their homes. They are exploited in slave labor. They are not allowed to go to school.

Thank you for helping us change this.

With your support, Childaid Network is able to provide children and youth who otherwise would have no prospect in life with a way to a good future.

  - Work with street children
  - Working for children's rights, against child labor and abuse
  - Children's homes

**Nepal**

- Unsere Projekte:
- Montessori Center
  - Teacher training
  - Improvement of government schools
  - Preschool, early childhood education
  - Vocational training
  - Sponsorship project for children
  - Health promotion
  - Health stations

**Bangladesh**

- Our projects:
- Improvement of government schools
  - Teacher qualification
  - Preschool, early childhood education

**Myanmar**

- Substitute schools for refugee children

Explanation of symbols: School programs | Vocational training | Children's rights | Health promotion | on average, one flag stands for ten locations

## Education is the key to life

Our projects provide children and adolescents who otherwise cannot go to school with **access to education** and **vocational training**.

During the **pandemic**, we have found **new solutions** with our local partners to reach our target groups and to further support them. Continuity in **cooperation** is more important than ever.

- ❷ Even during the pandemic – our vocational training courses continued. (Meghalaya, India, 2021)

# For more than 15 years: Sustainable engagement for the poorest

In focus: refugees, street children, minorities

**Our goal:** All children obtain their rights, above all, access to good education.

**We therefore focus especially on**

- Help for exploited minorities in remote areas
- Child laborers without access to school and youth without formal training
- Care for street children in the slums
- Education for boys and girls growing up in refugee camps

❶ Clean water, balanced nutrition and good hygiene help with the healthy development of children in our projects. (Photo Craig Pusey, Nepal, 2022)

Our projects help the **poorest of the poor** – independently of their origin, gender, religion, culture or nationality. The majority of students in our courses are girls and young women.

**No charity but impetus for change**

We regard our support as **help for self-help.**

Our projects complement government education programs – they do not replace them. We only support projects where the village elders and those affected contribute, because only then can these projects have a **lasting effect.**

We work with local partners to make sure that the state and civil society **take responsibility** so that we can make ourselves and our projects redundant.

❷ Girls are disadvantaged in many places, which is why we focus our support particularly on their good development.

# We ensure that your donation helps where it is needed

Being the founder and chairman, I have been working full-time for Childaid Network since 2006 – without pay. I coordinate our work and engage wherever it is necessary. Please contact me with any questions, requests or suggestions.

*Dr. Martin Kasper*

It is my vocation to enable marginalized children to have a good future. For me, it is a great privilege to be able to dedicate so much of my time for this cause. I am excited by the progress – and thank the many people who participate.

As a member of the honorary Management Bord, I take care of project controlling and the ongoing good cooperation in the team.

*Sandra Hörbelt*

I am committed to ensuring that disadvantaged children receive their right to a safe childhood and a good education. The progress of our children makes me happy; it shows me how effectively and sustainably your donations are being used.

As unsalaried board member for Finance, I consider it my responsibility that our cost structure remains slim, all criteria for our non-profit status are met and your donations reach the projects.

*Michael Legeland*

I find my work for Childaid Network very satisfying and meaningful: Humanitarian engagement is combined with professionalism for the benefit of disadvantaged children.

## Organization Childaid Network 2022

# A network for children - get involved!

Our **success** is the result of the **engagement** of many people. We are excited about the growing **network** of supporters, partners, consultants, fundraisers and active volunteers.

You share our vision? Then you can help us. Give us some of your time, your contacts or your talents. Celebrate for children! Organize a school or sponsoring event! **Inspire people for our goals!**

1 Active solidarity – a key component at Helene-Lange-School in Wiesbaden.

# Economical • effective • transparent

For more than 15 years, our projects bring change

We promote access to education for hundreds of thousands of disadvantaged children and young people.

We enabled more than 30,000 young people to catch up on their primary school education.

In 2022, we directly reached more than 150,000 young people with our projects.

We are helping more than 1,300 government schools to improve their quality.

Tens of thousands of street and refugee children enter regular schools through our bridging courses.

We support vocational training of tens of thousands young people.

We pay about 2,000 salaries for teachers and social workers.

## 30€

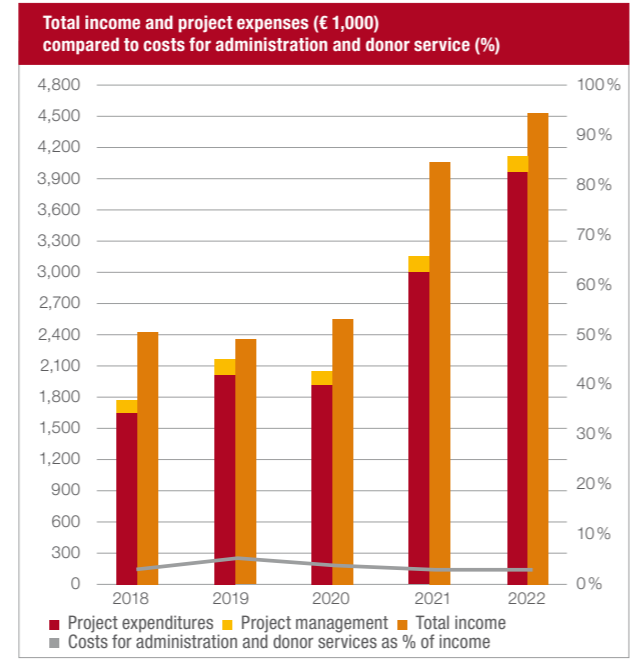

are enough to send a refugee child to school for a year

## 100€

are sufficient to provide an unemployed young person with a job qualification

## 100€

per month is required to educate 40 – 50 youths in an evening school

### Funds spent in 2022

### Projects

- 53% School programs
- 25% Vocational training
- 13% Children's rights
- 7% Health
- 2% Other projects

1 Sharpening senses, creating joy in learning, discovering and nurturing talents at an early age, that is the goal of our preschool programs. (Nepal, 2022)
