

Rule Violations: Casemanagement

Childaid Network takes child protection very seriously. The aim is to protect all children, young people and other people in need of protection in our environment from any kind of danger, especially all forms of violence, including sexual violence. This applies to all projects, events and other activities of Childaid Network in Germany and abroad.

In the event of a rule violation or a corresponding suspicion, the case management team meets to clarify the event and the further procedure using a systematic process. The flowchart describes this process. The case management team has additional working documents at its disposal for this purpose. The well-being of the child is always the focus.
